

## **Best dishwashers for under \$400 in 2012**

Are you tired of spending hours doing your dishes manually in your sink? Most likely you are. Do you know that you can get a very good quality top rated dish-washer for under four hundred dollars?

A dish-washer gives you the convenience of having clean dishes saving you time and a lot of energy that you can spend on something you love to do. There are a lot of dishwashers with prices under 400 bucks and the only hard part will be choosing one that suits your needs. Below are four products that have great consumer reviews and prices on Amazon as the best dishwashers for under \$400.

### **1. AMANA TALL TUB DISHWASHER, ADB1400PYW, WHITE**

This product has received a lot of positive reviews due to its ability to clean all types of dishes and utensils thoroughly. It comes with a price tag of \$329 for a new unit which is really a bargain given the features that you get. The tall tub means that there is a lot of room to accommodate all your dishes, even the largest, in separate slots allowing for a good clean and minimal damage to delicate utensils.

This appliance scores highly on the looks department. Its stylish finish, especially the white color, allows it to fit naturally with your kitchen's design. In addition Amana Tall Tub works very quietly unlike other dish-washers which run with a lot of noise and clutter. This makes it one of the best dishwashers for the money.

### **2. SPT COUNTERTOP DISHWASHER, SILVER**

If what you want is a dishwasher that takes up as little room as possible in your kitchen, you should go for the SPT countertop. Installing this appliance is an easy job only requiring hooking it up to your faucet and power supply. You can easily install it yourself from the manuals provided without waiting for and paying an expensive professional. It has a solid design with good quality seals to ensure no leakage takes place.

To fit in with your kitchen design, the SPT countertop comes with a stylish silver finish and its size is neither too large as to look misplaced nor too small as to be inadequate in handling your large dishes. The price tag for a new unit is \$258 ranking it high among the best dishwashers for under \$300.

### **3. EDGESTAR 6 PLACE SETTING COUNTERTOP PORTABLE DISHWASHER-SILVER**

With a \$229 price tag for a new unit, the Edgestar 6 place setting is definitely one of the most economical dishwashers in the market. Its design is eye-catching with smooth edges and a unique silver finish. The unit is considerably small in size for a good fit on a counter but this does not diminish its capacity to work on large loads of dishes.

Fixing the hose on a faucet presents minimal problems and no technical skills are required to operate it. The main reason why this appliance is ranked as one of the top dishwashers for under three hundred

dollars is its reputation for durability, as seen in the favorable reviews.

#### **4. FRIGIDAIRE FFBD2409LS 24 BUILT-IN DISHWASHER-STAINLESS STEEL**

This dishwasher merits a place on the best dishwashers for under \$400 list due to its \$315 price tag and the many features you get for this price. It also runs quietly and its size is large enough to fit all your dishes and cutlery. It is a bit slower in cleaning than the other models but with features such as high temperature and delay wash, with the timer, it more than makes up for its lack of speed.
